

KINDS OF RHEUMATISM

In popular language the word rheumatism is a term that covers a multitude of ills of which pain is the chief symptom. Articular rheumatism, inflammatory rheumatism and rheumatic fever are all names for the same disease. Muscular rheumatism affects the muscles and does not spread from one spot to another like inflammatory rheumatism. Lumbago is a form of muscular rheumatism.

Some people have rheumatism every winter especially those people who inherit a rheumatic tendency. They will continue to have recurring attacks until the blood is built up to a strength sufficient to overcome the rheumatic poison. External applications and drugs that merely relieve the pain are useless. Dr. Williams' Pink Pills build up the blood and really correct the trouble.

With the poisons in the blood there is a continual combat between the health forces and the disease. When the rheumatic poison prevails the blood gets thin rapidly. When the blood is made rich and red by Dr. Williams' Pink Pills the poisons are destroyed and expelled. The free booklet "Building Up the Blood" tells the whole story and the diet book "What to Eat" will be sent on request by the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

EVERY THREE MINUTES ONE DIES IN THE U. S.

The Anti-Tuberculosis Society illustrates the frightful toll of consumption by extinguishing a light every three minutes, and shows that it is the man or woman, girl or boy, who neglects colds, whose blood is impure, who feels weak and languid, who is the very one to contract tuberculosis—and none are immune.

During changing seasons, or after sickness, blood-quality is most important, and if you and your family will take Scott's Emulsion after meals it will charge your blood with health-sustaining richness, quicken circulation, and strengthen both lungs and throat.

Scott's is free from alcohol—no toxic take—it cannot harm. Get a bottle to-day. Scott & Bowne, Bloomfield, N. J.

ITCHING ECZEMA COVERED ENTIRE BODY, RESINOL CURED

Could Not Sleep. 8 Remedies had Failed. Resinol Stopped Itching Immediately.

Boston, Mass., Aug. 11, 1914.—"My entire body, even my eyelids, was completely covered with blisters as large as a pea. When one would burst water would come from it, and then it would turn into a very painful sore. The burning and itching were something terrible, and I COULD NOT SLEEP nor rest. I think I had one of the worst cases of eczema a human being ever had. I used eight different kinds of remedies without success. I then tried Resinol Ointment and Resinol Cream and it stopped the itching IMMEDIATELY. I gradually noticed a change for the better. Now I am entirely cured, and am without a single blister on any part of my body."
